

THE CATHEDRAL OF THE ROCKIES

(The place to go is Idaho)

Boise, Idaho's First Methodist Church, foremost example of dynamic Gothic architecture, is the first church built for Television; its Minister, Dr. Herbert E. Richards, Conducts the largest number of TV and Radio programs of any individual church in America.

The stained glass — some with gold "flown" layer on layer" — weaves traditional Biblical iconography with modern subject matter.

The social and educational church facilities include barbecue pits, roller skating, nurseries, kindergartens, equipment for the aging, and an Arlington Carillon.

POST CARD

Address

Dear Gus

I hope you have been able to keep cool this summer. The last ten days in Idaho were hot.

We are now with Jane, but missed you to know we were thinking about you. Love Mac
